

Modulex Media Solution - Professional digital marketing from start to finish

One combined platform for thousands of digital marketing activities.

Shorten the time-to-market significantly and increase the quality of your graphical work in one process. This makes the solution very cost-effective and fast to use, as you only need to use one tool to reach your clients, no matter if your output is print, web, mobile or digital displays.

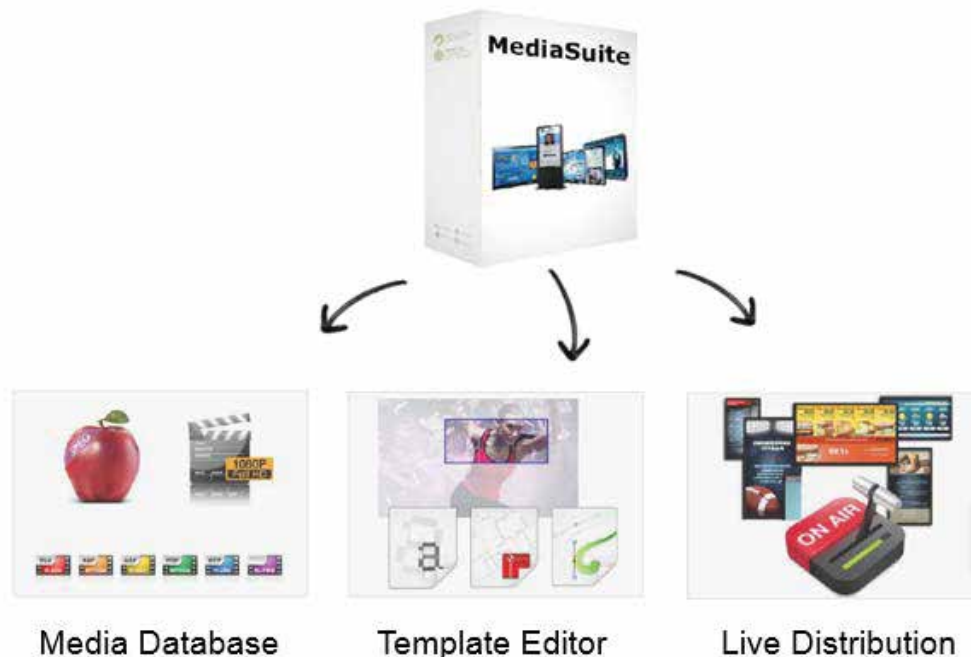

One unique platform, that lets you:

- **Combine** activities across digital and analog media
- **Control** all displays and printed media in just one workflow - quickly and secure
- **Convert** files, images and even videos automatically to fit the actual target

MediaSuite

User-friendly cloud based platform, that makes it easy to handle all your digital media in one place, through 3 elements:

- Media Database
- Template Editor
- Live Distribution

Modulex Media Solution offers

- One original media in high resolution
- no version confusions
- Quick overview of all digital media in one system
- Zoom and crop images directly in the system without using PhotoShop®
- User friendly and simple web interface in the client's design
- Control of access rights and functionality based on user groups
- Direct booking and control of content for displays, web, social media and smart phones

Easy publication

Publish your content in analog or digital format in just 3 easy steps

Step 1

Choose a media file

Step 2

Insert in template

Step 3

Choose a channel
